LIST OF CONTENTS FOR VOLUME 31, 2004

INTERNATIONAL COMMUNICATIONS IN HEAT AND MASS TRANSFER

2004 **Volume 31, Number 1** **January**

Contents

A.V. Kuznetsov and A.A. Avramenko	1	Effect of small particles on stability of bioconvection in a suspension of gyrotactic microorganisms in layer of finite depth
A.V. Kuznetsov and S.M. Becker	11	Effect of the interface roughness on turbulent convective heat transfer in a composite porous/fluid duct
A. Valencia, R. Paredes, M. Rosales, E. Godoy and J. Ortega	21	Fluid dynamics of submerged gas injection into liquid in a model of copper converter
T. Fang	31	A note on the incompressible couette flow with porous walls
K.S. Ha, R.J. Park, H.Y. Kim, S.B. Kim and H.D. Kim	43	A study on the two-phase natural circulation flow through the annular gap between a reactor vessel and insulation system
M.C. Kim, K.Y. Kim and S. Kim	53	The onset of transient convection in fluid-saturated porous layer heated uniformly from below
K.C. Leong and L.W. Jin	63	Heat transfer of oscillating and steady flows in a channel filled with porous media
C. Tangduangdee, S. Bhumiratana and S. Tia	73	The role of moisture movement and crust thermal property on heat and mass transfer process during deep-fat frying
J. Su	85	Improved lumped models for transient radiative cooling of a spherical body
D.A. Al-Otaibi, I. Dincer and M. Kalyon	95	Thermoeconomic optimization of vapor-compression refrigeration systems
A.Z. Sahin and I. Dincer	109	Incorporation of the dincer number into the moisture diffusion equation
H.F. Oztop, I. Dagtekin and A. Bahloul	121	Comparison of position of a heated thin plate located in a cavity for natural convection
A. Durmuş, I. Kurtbaş, F. Gulçimen and E. Turgut	133	Investigation of the effect of co-axis free rotating propeller-type turbulators on the performance of heat exchanger
S.O. Ajadi and S.S. Okoya	143	The effect of variable pre-exponential factor on the ignition time of a homogeneous system

INTERNATIONAL COMMUNICATIONS IN HEAT AND MASS TRANSFER

2004 Volume 31, Number 2 March

Contents

Y. Masuda, T. Aizawa, M. Kanakubo, N. Saito and Y. Ikushima	151	Numerical simulation of two-dimensional piston effect and natural convection in a square cavity heated from one side
H. Gao, L.J. Guo, H.L. Wu and H.Y. Gu	161	Non-uniformity of heat transfer in a shuttle kiln
L. Zhen-hua and Z. tong	169	Critical heat flux during natural convective boiling in inclined annular tubes submerged in saturated liquids
M. Kilic	181	Determination of heat transfer rate and Nusselt number on the thermal-entry region in ducts
S. Odeh, S. Nijmeh and B. Akash	191	Performance evaluation of solar-assisted double-tube evaporator heat pump system
P. Razelos and R.N. Krikkis	203	Two-dimensional fin performance: Bi (top surface) ≥ Bi (bottom surface)
F. Bazdidi-Tehrani and M. Naderi-Abadi	211	Numerical analysis of laminar heat transfer in entrance region of a horizontal channel with transverse fins
P. Venkateswarlu, D.J. Babu, S.V. Naidu and D.S. Rao	221	Studies on ionic mass transfer at a rotating cone electrode in an open cell
I.A. Hassanien, A.A. Salama and	231	Non-Darcian effects on vortex instability of mixed convection N.M. Moursy over horizontal plates in porous medium with surface mass flux
H.J. Poh, K. Kumar, H.S. Chiang and A.S. Mujumdar	241	Heat transfer from a laminar impinging jet of a power law fluid
Y. Shi, A.S. Mujumdar and M.B. Ray	251	Effect of large temperature difference on impingement heat transfer under a round turbulent jet
S.-C. Tzeng, C.-Y. Soong and S.-C. Wong	261	Heat transfer in rotating channel with open cell porous aluminum foam
S. Kim, K.J. Lee, Y.J. Ko, B.J. Chung K.Y. Kim and M.C. Kim	273	Direct estimation of time-dependent boundary heat flux
K.-T. Chiang	281	The effect of morphological instability on the onset of oscillatory mode convection during solidification
Z.X. Yuan, X.T. Yan and C.F. Ma	291	A study of coupled convective heat and mass transfer from thin water film to moist air flow

INTERNATIONAL COMMUNICATIONS IN HEAT AND MASS TRANSFER

2004 Volume 31, Number 3 April

Contents

I.Y. Chen, J.C. Huang and C.C. Wang	303	Single-phase and two-phase frictional characteristics of small U-type wavy tubes
T. Watanabe and H. Taniguchi	315	Boundary layers on rotating axisymmetric surface with uniform suction for a constant wall heat flux
J.L. Lin and H.K. Ma	323	A deposition model applied in a thermal spray process
S. Kim and M.C. Kim	333	A note on the azimuthall momentum transport in infinitely arrayed rod bundles
E.M. Abo-Eldahab and A.M. Salem	343	Hall effects on MHD free convection flow of a non-Newtonian power-law fluid at a stretching surface
Y. Chen	355	Convection heat transfer of fully developed turbulent flow in shaped tubes with a new concept
S.B. Liang and H.B. Ma	365	Oscillating motions of slug flow in capillary tubes
M.Q. Al-Odat	377	Nonsimilar solutions for unsteady free convection from a vertical plate embedded in a non-Darcy porous medium
S.R.S. Dias, F.P.L. Futata, J.A. Carvalho Jr., H.S. Couto and M.A. Ferreira	387	Investigation of food grain drying with pulsating air flows
Y.-S. Kim, J.-W. Park and C.-H. Song	397	Investigation of the steam-water direct contact condensation heat transfer coefficients using interfacial transport models
E.M.E. Elbarbary and N.S. Elgazery	409	Chebyshev finite difference method for the effect of variable viscosity on magneto-micropolar fluid flow with radiation
A.J. Chamkha and I. Pop	421	Effect of thermophoresis particle deposition in free convection boundary layer from a vertical flat plate embedded in a porous medium
A. Mansour, A. Amahmid, M. Hasnaoui and M. Bourich	431	Soret effect on double-diffusive multiple solutions in a square porous cavity subject to cross gradients of temperature and concentration
T.K. Aldoss, M. Alkam and M. Shatarah	441	Natural convection from a horizontal annulus partially filled with porous medium
	453	International Summer School – thermodynamic optimization and constructal design

INTERNATIONAL COMMUNICATIONS IN HEAT AND MASS TRANSFER

2004 Volume 31, Number 4 May

Contents

S. Mahmud and R.A. Fraser	455	Free convection and entropy generation inside a vertical inphase wavy cavity
Q. Wan and A.V. Kuznetsov	467	Investigation of the acoustic streaming in a rectangular cavity induced by the vibration of its lid
T. Fang	477	Similarity solutions for heat conduction in a semi-infinite medium with power law thermal conductivity
T. Fang	487	Further discussion on the incompressible pressure-driven flow in a channel with porous walls
K. Choukairy, R. Bennacer and P. Vasseur	501	Natural convection in a vertical annulus boarded by an inner wall of finite thickness
O.B. Adeyinka and G.F. Naterer	513	Optimization correlation for entropy production and energy availability in film condensation
S. Mahmud and S.H. Tasnim	525	Free convection in a cavity with two straight and two arced walls
M. Rebay and J. Padet	537	Transient laminar forced convection from a wedge flow
J.F. Nastaj and K. Witkiewicz	549	A parabolic spherical moving boundary problem in vacuum freeze drying of random solids
R. Tovar, J. Rojas and M.L. Cedillo	561	Development of a wall plume from a boundary layer along a partially heated vertical wall
C.-Y. Cheng	573	The optimum allocation of heat tranfer equipment for an irreversible combined heat engine with ecological criteria
E. Kavak Akpinar	585	Experimental determination of convective heat transfer coefficient of some agricultural products in forced convection drying
V. Gülkaç and T. Öziş	597	On a lod method for solution of two dimensional fusion problem with convective boundary conditions
I. Horuz	607	Ozone-depleting substances, phase-out program and alternatives

INTERNATIONAL COMMUNICATIONS IN HEAT AND MASS TRANSFER

2004 Volume 31, Number 5 July

Contents

X. Ma, A. Briggs and J.W. Rose	619	Heat transfer and pressure drop characteristics for condensation of R113 in a vertical micro-finned tube with wire insert
P. Geng and A.V. Kuznetsov	629	Effect of small solid particles on the development of bioconvection plumes
S.H. Tasnim and M.R. Collins	639	Numerical analysis of heat transfer in a square cavity with a baffle on the hot wall
P.G. Vicente, A. García and A. Viedma	651	Mixed convection heat transfer and isothermal pressure drop in corrugated tubes for laminar and transition flow
G. Davaa, T. Shigechi and S. Momoki	663	Effect of viscous dissipation on fully developed heat transfer of non-Newtonian fluids in plane laminar poiseuille-couette flow
D. Lesnic and P.J. Heggs	673	A decomposition method for power-law fin-type problems
L. Malinowski and S. Bielski	683	An analytical method for calculation of transient temperature field in the counter-flow heat exchangers
Y.K. Shen, J.H. Liao and W.X. Zhao	693	Study on warpage and shrinkage of flip chip encapsulation process
B.-J. Chung, S. Kim and M.C. Kim	703	An experimental investigation of film condensation of flowing mixtures of steam and air on a vertical flat plate
H.Y. Kim, Y.Y. Bae, J.H. Song, H.D. Kim and J.K. Park	711	Thermal hydraulic phenomena in a water pool due to air bubble oscillation
N.H. Saeid and I. Pop	723	Viscous dissipation effects on free convection in a porous cavity
M.A. Rosales and R.L. Frederick	733	Semi analytic solution to the Cartesian Graetz problem: results for the entrance region
I.A. Hassanien, A.A. Salama and N.M. Moursy	741	Inertia effect on vortex instability of horizontal natural convection flow in a saturated porous medium with surface mass flux
E.M. Abo-Eldahab and M.A. El Aziz	751	Hall current and ohmic heating effects on mixed convection boundary layer flow of a micropolar fluid from a rotating cone with power-law variation in surface temperature
S.G. Etemad	763	Turbulent flow friction loss coefficients of fitting for purely viscous non-Newtonian fluids

INTERNATIONAL COMMUNICATIONS IN HEAT AND MASS TRANSFER

2004 Volume 31, Number 6 August

Contents

M. Bourich, M. Hasnaoui, A. Amahmid and M. Mamou	773	Soret convection in a shallow porous cavity submitted to uniform fluxes of heat and mass
A. Bahloul, M.A. Yahiaoui, P. Vasseur and L. Robillard	783	Thermogravitational separation in a vertical annular porous layer
Y.K. Shen, Y.J. Shie and W.Y. Wu	795	Extension method and numerical simulation of micro-injection molding
R.M.S. Gama, C.A.B. Silva and R.B.P. Nonato	805	A mathematical model for describing the thermal interchange between two black bodies in a vacuum
K.-T. Chiang	815	Dealing with complicated starting value in shooting process with Broyden's method: example of the onset of convection for the viscoelastic fluid
S.-C. Tzeng and W.-P. Ma	827	Experimental investigation of heat transfer in sintered porous heat sink
M.C. Kim, L.H. Kim and C.K. Choi	837	The onset of convective motion in a horizontal fluid layer heated from below and cooled from above with constant heat flux
M.C. Kim, K.J. Lee, Y.J. Ko, K.Y. Kim and S. Kim	847	Electrical impedance imaging for binary- and ternary-mixture systems
E. Kavak Akpinar, Y. Bicer, C. Yildiz and D. Pehlivan	857	Heat transfer enhancements in a concentric double pipe exchanger equipped with swirl elements
S.-A.B Al-Omari	869	Experimental study on heat transfer to furnace walls in a small LPG-fueled furnace
S. Saouli and S. Aïboud-Saouli	879	Second law analysis of laminar falling liquid film along an inclined heated plate
M.Z. Hossain and A.K.M.S. Islam	887	Fully developed flow stuctures and heat transfer in sine-shaped wavy channels
A.A. Ranjbar-Kani and K. Hooman	897	Viscous dissipation effects on thermally developing forced convection in a porous medium: circular duct with isothermal wall

INTERNATIONAL COMMUNICATIONS IN HEAT AND MASS TRANSFER

2004 Volume 31, Number 7 October

Contents

J.S. Cole, G.F. Donnelly and P.L. Spedding	909	Friction factors in two phase horizontal pipe flow
J.S. Cole, G.F. Donnelly and P.L. Spedding	919	Trials of momentum balance for two phase horizontal pipe flow
F. Alhama, J. Zueco and C.F. González Fernández	929	An efficient method for simultaneously determining thermal conductivity and specific heat in solids in the form of an inverse problem
S.M. Sami and J. Comeau	939	Modelling of two phase flow pressure drop of refridgerant mixtures under liquid/gas injection conditions
S. Mahmud and R.A. Fraser	951	Flow and heat transfer inside porous stack: steady state problem
D.G. Blinov, Yu.V. Sherenkovskii, N.M. Fialko, V.G. Prokopov and V.L. Yurchuk	963	Construction of low-dimensional models for heat-transfer problems on the base of method of polyargumental systems
S.C. Chen, H.S. Peng, J.A. Chang and W.R. Jong	971	Simulations and verifications of induction heating on a mold plate
S. Kim, K.J. Lee, Y.J. Ko, M.C. Kim and K.Y. Kim	981	Estimation of temperature-dependent thermal conductivity and heat capacity per unit volume with a simple integral approach
T. Nualboonrueng and S. Wongwises	991	Two-phase flow pressure drop of HFC-134a during condensation in smooth and micro-fin tubes at high mass flux
Y.H. Koh, N.S. Ong, X.Y. Chen, Y.C. Lam and J.C. Chai	1005	Effect of temperature and inlet velocity on the flow of a nonNewtonian fluid
A.F. Khadrawi, M.A. Al-Nimr and M. Tahat	1015	Dual-phase-lag heat conduction model in thin slab under the effect of a moving heating source
P. Vijayan and C. Balaji	1027	Turbulent forced convection in a parrallel plate channel with natural convection on the outside

INTERNATIONAL COMMUNICATIONS IN HEAT AND MASS TRANSFER

2004 **Volume 31, Number 8** **November**

Contents

C. Ould Lahoucine	1037	A Duhamel integral based solution for the sideways heat equation applied to the non-intrusive temperature measurement
T. Elperin, A. Fominykh and Z. Orenbakh	1047	Heat and mass transfer during bubble growth in an alternating electric field
A.A. Avramenko and A.V. Kuznetsov	1057	Stability of a suspension of gyrotactic microorganisms in superimposed fluid and porous layers
B.-J. Chung, S. Kim, M.C. Kim and M. Ahmadinejad	1067	Experimental comparison of film-wise and drop-wise condensations of steam on vertical flat plates with the presence of air
Y.K. Shen, C.M. Ju, Y.J. Shie and H.W. Chien	1075	Resin flow characteristics of underfill process on flip chip encapsulation
W.P. Wang, C.D. Ho and H.T. Lin	1085	The theoretical study of parallel-plate cool-thermal discharge systems with melt removal and external refluxes
S. Chantasiriwan	1095	Investigation of the use of radial basis functions in local collocation method for solving diffusion problems
H.J. Jeon, B.Y. Choi, M.C. Kim K.Y. Kim and S. Kim	1105	Phase boundary estimation in two-phase flows with electrical impedance imaging technique
M.E. Aguilera and A. López de Ramos	1115	Effect of CO_2 diffusion on wettability for hydrocarbon-water-CO_2 systems in capillaries
Y.C. Lam, J.C. Chai, P. Rath, H. Zheng and V.M. Murukeshan	1123	A fixed-grid method for chemical etching
Zv.M. Ivantcheva, R.M. Cotta and M.D. Mikhailov	1133	Symbolic computation of correction function for polynomial time response of intrinsic thermocouples

INTERNATIONAL COMMUNICATIONS IN HEAT AND MASS TRANSFER

2004 Volume 31, Number 8 November

Contents continued

C. Arslanturk	1143	Performance analysis and optimization of a thermally non-symmetric annular fin
S.U. Onbasioglu, H.C. Karakas and H. Dayioglu	1155	An experimental and computational approach to the heat transfer mechanism in the cooling channel of a texturing process
E.K. Akpinar	1165	Energy and exergy analyses of drying of red pepper slices in a convective type dryer
M.A. El-Hakiem	1177	Natural convection in a micropolar fluid with thermal dispersion and internal heat generation
M. Ali, A.K.M. Sadrul Islam and S. Ahmed	1187	Mixing and flame holding with air inlet configuration in scramjet combustor
B.A. Puthenveettil and J.H. Arakeri	1199	Integral analysis of laminar indirect free convection boundary layers with weak blowing for schmidt no. ~ 1
S.V. Naidu, V. Dharma Rao, P.K. Sarma and T. Subrahmanyam	1209	Performance of a circular fin in a cylindrical porous enclosure
M. Kumari and S. Jayanthi	1219	Non-darcy non-newtonian free convection flow over a horizontal cylinder in a saturated porous medium
O.D. Makinde	1227	Exothermic explosions in a slab: A case study of series summation technique
V. Gülkaç and T. Öziş	1233	Erratum to "On a lod method for solution of two dimensional fusion problem with convective boundary conditions" [International Communications in Heat and Mass Transfer, Vol. 31, No. 4 (2004) 597–606]
	1235	List of Contents for Volume 31, 2004
	1245	Author Index to Volume 31, 2004
